## A New Approach to Recovery: Strengthening Care Models and Engaging the Unengaged

Over 40 million Americans face addiction, but only 1 in 7 receives treatment. High relapse rates and readmissions highlight the need for augmenting existing support.

### Bridging Gaps in Care

Relapses often happen outside clinical visits. Sober Sidekick offers **24/7 recovery support** ensuring no one is ever alone.

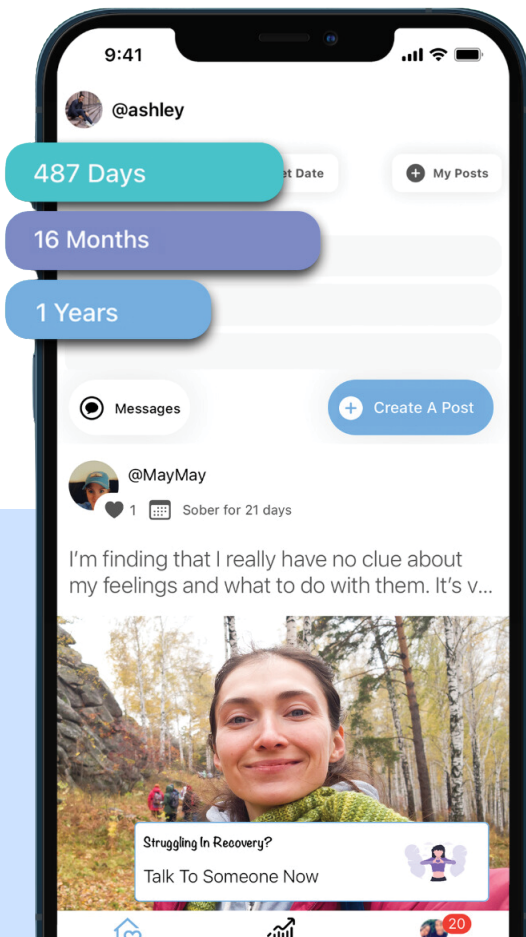

### Reducing Relapse Rates

Engaged individuals see a **48% decrease in reported relapse rates**, leading to improved health outcomes.

### Scalable Recovery Support

As North America's **fastest-growing digital health platform**, we already connect 500,000+ individuals to recovery support and resources.

## Testimonials

"This app has definitely turned my life around... I know that I am no longer alone."

"I am feeling better than yesterday, and your app has helped me psychologically."
