Description

Reconstructive surgery is performed on abnormal structures of the body caused by congenital defects, developmental abnormalities, trauma, surgery, infection, tumors or disease. ¹⁶

This policy outlines the medical necessity criteria for cosmetic and reconstructive procedures.

Note:

• Please refer to CP.MP.95 Gender Affirming procedures for procedures related to treatment of gender dysphoria.

Policy/Criteria

- **I.** It is the policy of QualChoice, Ambetter from Arkansas Health and Wellness, and Arkansas Total Care that *reconstructive procedures* are considered **medically necessary** when meeting all of the following:
 - A. Intent of the procedure meets one of the following:
 - 1. The procedure is performed to improve the function of an abnormal body part caused by illness, trauma, or a congenital defect after failure of conservative therapy (unless conservative therapy is not standard of care for the condition, or is contraindicated);
 - Breast reconstructive surgery due to trauma, the loss of breast tissue due to congenital or non-congenital disease or for for prophylaxis against a future disease of the breast does not require prior conservative therapy.
 - 2. Skin tag removal when located in an area that affects eyesight or in an area of friction with documentation of repeated irritation and bleeding (refer to Benefit Plan Contract for any coverage restrictions);
 - 3. Scar/keloid revision/removal when accompanied by pain unresponsive to conservative therapy and is recurrently infected, unstable, friable; or with functional impairment;
 - 4. Certain reconstructive procedures may be covered if improving appearance is the only benefit, e.g. post-mastectomy breast reconstruction. These procedures may include, but are not limited to:
 - a. Post-mastectomy, medically necessary lumpectomy, or other medically necessary breast surgery resulting in asymmetry: breast reconstruction, including nipple reconstruction, tattooing and surgery on contralateral breast to restore symmetry, or any procedural variations, iterations or approaches associated with breast reconstruction;
 - b. Breast reconstructive surgery due to trauma, the loss of breast tissue due to congenital or non-congenital disease or for prophylaxis against a future disease of the breast, including nipple reconstruction, tattooing and surgery on contralateral

CLINICAL POLICY

Cosmetic and Reconstructive Procedures

- breast to restore symmetry or any procedural variations, iterations or approaches associated with breast reconstruction.
- c. Use of FDA-approved facial dermal injections [Poly-L-Lactic acid (SculptraTM), calcium hydroxylapatite microspheres (Radiesse[®])] or autologous fat transfers for HIV-associated wasting* when meeting both of the following:
 - i. Diagnosis of HIV (human immunodeficiency virus) or AIDS (acquired immunodeficiency syndrome);
 - ii. Diagnosis of facial lipodystrophy syndrome (LDS);
- B. Medical records with photographs are provided, as applicable.

*Note: For Serostim (somatropin) for HIV associated wasting, see CP.PHAR.517 Human Growth Hormone (Somapacitan, Somatrogon, Somatropin), Medicaid; CP.CPA.353 Human Growth Hormone (Somapacitan, Somatrogon, Somatropin), Commercial; or HIM.PA.161 Human Growth Hormone (Somapacitan, Somatrogon, Somatropin), Health Insurance Marketplace. For Egrifta (tesamorelin) for lipodystrophy, see *CP.PHAR.109 Tesamorelin*.

- **II.** It is the policy of QualChoice, Ambetter from Arkansas Health and Wellness, and Arkansas Total Care that *cosmetic surgery* is **not medically necessary** and generally not a covered benefit when performed to improve a patient's normal appearance and self-esteem. These procedures include, but are not limited to:
 - A. Excision of excessive skin
 - B. Body contouring
 - C. Body lift
 - D. Breast augmentation
 - E. Liposuction, excluding lipoma as directed by clinical decision support criteria
 - F. Surgery to correct unsatisfactory results from previous cosmetic and/or non-covered service
 - G. Revision, removal, or replacement of breast implants previously placed for cosmetic reasons
 - H. Removal of excess skin or body contouring procedures following weight loss or bariatric surgery when removal is solely cosmetic
 - I. Facial augmentation
 - J. Abdominoplasty
 - K. Dermabrasion
 - L. Skin rejuvenation and resurfacing
 - M. Electrolysis, laser hair removal
 - N. Hair transplantation, when not performed to correct permanent hair loss caused by disease or injury
 - O. Tattooing (except when covered for breast reconstruction post-mastectomy)
 - P. Injectable filler
 - Q. Circumcision revisions done only to improve appearance
 - R. Mastopexy (except for breast reconstruction as stated under 1A4a and 1A4b)
 - S. Correction of inverted nipples
 - T. Repair of diastasis recti

U. Breast reconstruction for fibroadenomas or other benign lesions, unless medically necessary per clinical decision support criteria.

Background

Reconstructive surgery is performed on abnormal structures of the body caused by congenital defects, developmental abnormalities, previous or concurrent surgeries, trauma, infection, tumors or disease. It is generally performed to improve the functioning of a body part and may or may not restore a normal appearance.² Functional impairment is a health condition in which the normal function of a part of the body or organ system is less than age appropriate at full capacity, such as decreased range of motion, diminished eyesight or hearing, etc. that variably impacts activities of daily living.³

Cosmetic surgery is performed to reshape normal structures of the body in order to improve the appearance and self-esteem of a patient. It is generally considered not medically necessary.¹

CPT Codes That Support Coverage Criteria

CPT Codes	Description	
Codes		
11200	Removal of skin tags, multiple fibrocutaneous tags, any area; up to and	
	including 15 lesions	
11201	Removal of skin tags, multiple fibrocutaneous tags, any area; each additional	
	10 lesions, or part thereof (List separately in addition to code for primary	
	procedure)	
11400	Excision, benign lesion including margins, except skin tag (unless listed	
	elsewhere), trunk, arms or legs; excised diameter 0.5 cm or less	
11401	Excision, benign lesion including margins, except skin tag (unless listed	
	elsewhere), trunk, arms or legs; excised diameter 0.6 to 1.0 cm	
11402	Excision, benign lesion including margins, except skin tag (unless listed	
	elsewhere), trunk, arms or legs; excised diameter 1.1 to 2.0 cm	
11403	Excision, benign lesion including margins, except skin tag (unless listed	
	elsewhere), trunk, arms or legs; excised diameter 2.1 to 3.0 cm	
11404	Excision, benign lesion including margins, except skin tag (unless listed	
	elsewhere), trunk, arms or legs; excised diameter 3.1 to 4.0 cm	
11406	Excision, benign lesion including margins, except skin tag (unless listed	
	elsewhere), trunk, arms or legs; excised diameter over 4.0 cm

Important Reminder

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. "Health Plan" means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan's affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members/enrollees. This clinical policy is not intended to recommend treatment for members/enrollees. Members/enrollees should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members/enrollees and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members/enrollees and their representatives agree to be bound by such terms and conditions by providing services to members/enrollees and/or submitting claims for payment for such services.

Note: For Medicaid members/enrollees, when state Medicaid coverage provisions conflict with the coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical policy.
